

VOTE NO ON AMENDMENT 3

It's Corporate Greed, not Freedom

Did You Know?

Marijuana mega corporations have **spent over \$75 million** trying to pass Amendment 3. Why? It entrenches their monopoly, bans homegrown pot, and gives special licenses to corporations. They wrote it. They rigged it. And they are hoping you fall for it. Amendment 3 isn't the marijuana amendment, it's the monopoly amendment.

Amendment 3 It's Corporate Greed not Freedom

No matter how you feel about marijuana, we can all agree it's dangerous to hand control over any one industry to a handful of big corporations. That's exactly what Amendment 3 does. It's not about freedom for Floridians, it's about padding the profits of mega marijuana corporations. Here's what happens if Amendment 3 passes:

- Creates a Monopoly for a Few Big Corporations
- O Doesn't Allow Home-Grow to Force Everybody to Buy from the Mega Corporations

Creates a Monopoly for a Few Mega Corporations

Amendment 3 would establish a monopoly for large, mostly foreign corporations to dominate what could be a \$6 billion industry in Florida. Unlike other states where small-business owners are supported and competition is encouraged, Amendment 3 funnels all sales through Corporations. This not only stifles competition but ensures that only corporations profit, rather than allowing individuals to grow their own plants at their home.

Doesn't Allow Home Grow

Amendment 3 takes an unprecedented step by not allowing the home cultivation of marijuana, a common allowance in other states with legalized marijuana. This is not for public safety but rather a calculated move to ensure that all marijuana purchases are channeled through the mega corporations that have had a hand in crafting and funding Amendment 3.

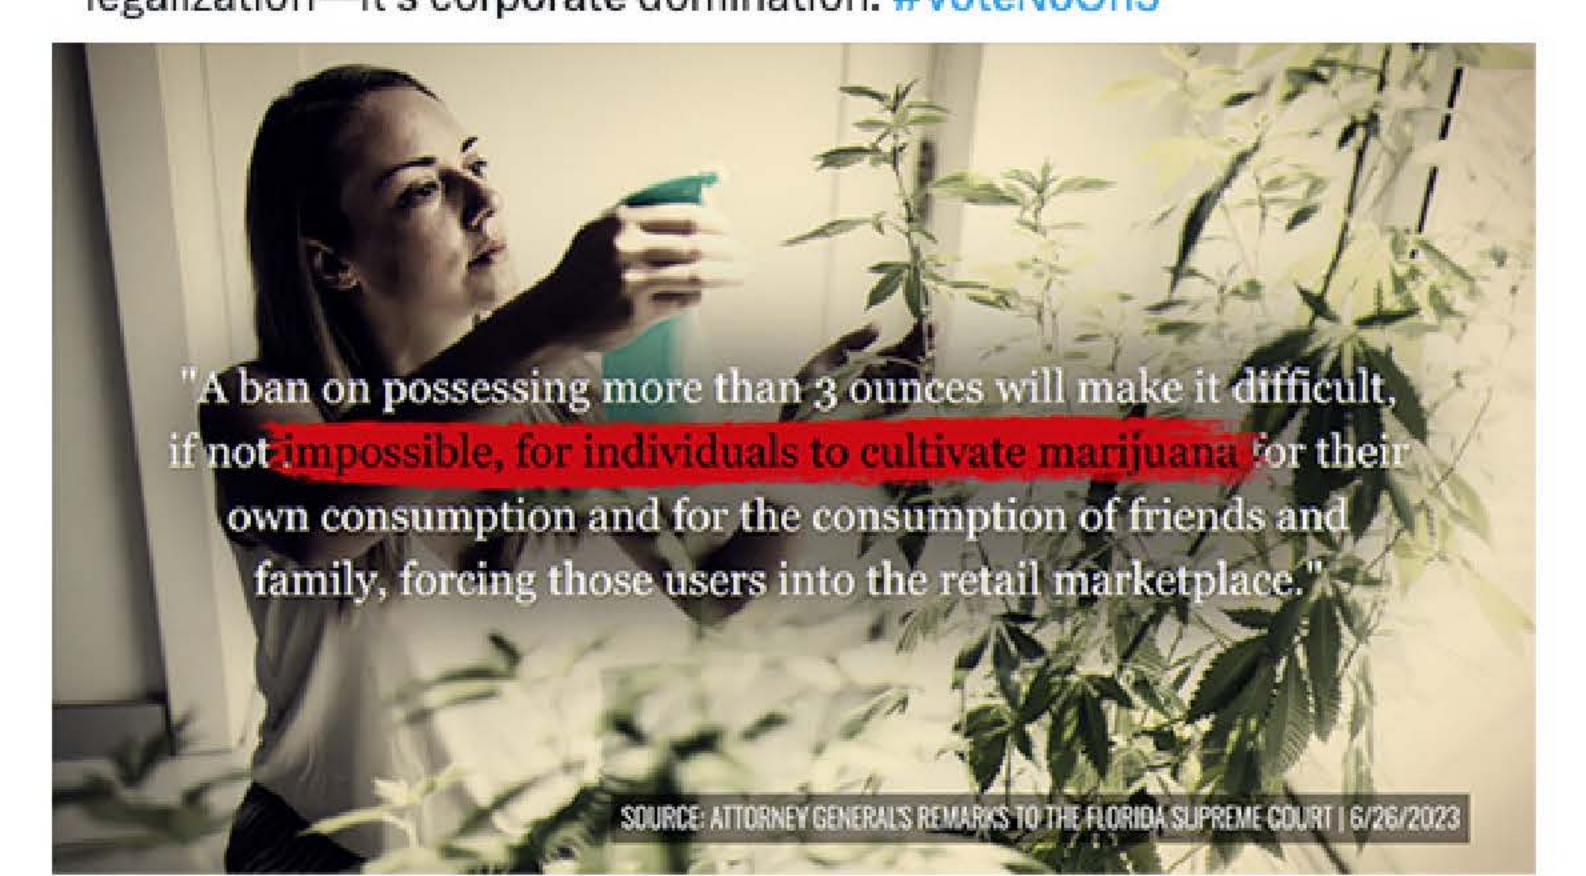

Amendment 3's Bad Ideas Will Devastate Florida Communities

Those who support Amendment 3 are quick to gloss over the harmful impact it will have on you and your family. The truth is, Amendment 3:

- Will Cause The Black Market To Explode
- Makes Pot More Prevalent And Therefore More Readily Accessible For Our Children
- Allows Smoking Anywhere
- Does Not Provide A Plan For How The Money Generated From Marijuana Sales Will Be Allocated

Vote No on 3 © @VoteNo_On3 · Sep 7

Follow the money. Big Marijuana spent \$60 million to put Amendment 3 on the ballot because it hands them control of Florida's weed market. This isn't legalization—it's corporate domination. #VoteNoOn3
